Happy Women's Day: Busy Bees, Bright Futures

This Women's Day, we celebrate the strength, resilience and dedication of women across our country. As we reflect on their many achievements, we are reminded of one of nature's greatest planners - the honeybee.

Every bee plays an important role in ensuring the hive prospers, working together to build, protect and prepare for the future. In the same way, women strengthen families, organisations and communities through their guidance, determination and care. Their contributions create lasting foundations that benefit not only the present, but future generations as well.

As South Africa marks Women's Day this Sunday, the Verso Umbrella Retirement Provident Fund proudly recognises the remarkable women who, like the busy bees in a thriving hive, continue to inspire, support and strengthen those around them.

We thank you for the positive difference you make every day!
